Proma Roy

Graduate Research Assistant at RF CUNY. Graduate Student (MS Cybersecurity) at CCNY | Cryptography • Secure Systems • Network Security

New York City Metropolitan Area

Summary

Graduate student in Cybersecurity with 3+ years of data analysis and credentialing experience. Skilled in managing databases, document verification, and educational research.

Experience

Research Foundation of The City University of New York

Graduate Research Assistant

March 2026 - Present (3 months)

New York, NY

Graduate Research Assistant supporting an NSF-funded project hosted at John Jay College of Criminal Justice (CUNY) titled:

“Preventing Intimate Partner Violence Using Digital Technology: A Transdisciplinary Approach.”

The project focuses on designing and evaluating a privacy-preserving digital platform aimed at supporting individuals at risk of intimate partner violence (IPV).

Responsibilities include:

- Contributing to the end-to-end software development lifecycle of a digital safety platform
- Supporting research-driven system design, prototyping, and proof-of-concept development
- Collaborating with a multidisciplinary team of researchers, technologists, and nonprofit partners
- Assisting with backend data preparation and analytics workflows
- Identifying, debugging, and resolving software issues and system integration challenges

- Documenting development processes and contributing to team knowledge sharing

This work supports the final development and beta testing phase of the project funded under the NSF Partnership for Innovation (PFI-RP) program.

Radiant Data Systems, Ltd
